Subject: **NPDES Permit No. TN0000965**
Air Liquide Industrial U.S. LP - Millington
Millington, Shelby County, Tennessee

Dear Mr. Dobbs:

It has recently come to the attention of the Division of Water Resources that there is a typographical error in your current NPDES permit for the Air Liquide Industrial U.S. LP - Millington. This error has been corrected, and the division asks that you replace page 15 of your current version of NPDES permit No. TN0000965 with the attached page which reflects correction made to Placement of Sign section. The sign need only include information regarding treated industrial wastewater.

Please be advised that you have the right to appeal any of the revisions established by this action, but not other portions of the NPDES permit, in accordance with Tennessee Code Annotated, Section 69-3-110, and the General Regulations of the Water Quality, Oil and Gas Board. If you elect to appeal, you should file a Petition within thirty (30) days of the receipt of this revision.

If you have questions, please contact the Memphis Environmental Field Office at 1-888-891-TDEC; or, at this office, please contact Ms. Souraya Fathi at (615) 532-0485 or by E-mail at Souraya.Fathi@tn.gov.

Sincerely,

Vojin Janjic
Manager, Water-Based Systems

D. ANTIDegradation

Pursuant to the Rules of the Tennessee Department of Environment and Conservation, Chapter 1200-4-3-.06, titled "Tennessee Antidegradation Statement," which prohibits the degradation of high quality surface waters and the increased discharges of substances that cause or contribute to impairment, the permittee shall further be required, pursuant to the terms and conditions of this permit, to comply with the effluent limitations and schedules of compliance required to implement applicable water quality standards, to comply with a State Water Quality Plan or other state or federal laws or regulations, or where practicable, to comply with a standard permitting no discharge of pollutants.
